

 **Kidney-D™** 
FOR PEOPLE

Innovative formulation of vitamin D

Saves and supports normal kidney, heart and every organ function, supports GENERAL WELL-BEING over time!

84% of people with kidney problems have low vitamin D levels: a damaged kidney cannot convert vitamin D into its active, health-promoting forms.

This can lead to faster progression of kidney damage, faster death, increased protein in urine, severe bone and joint pain, calcium and phosphorus imbalance, hyperparathyroidism, decreased immunity, heart and blood vessel problems, of creatinine and GFR (Glomerular Filtration Rate), increased inflammation, worse overall health.

Vitamin D3 benefits the kidneys and every cell in the body.

To function properly, vitamin D needs vitamin K2: they work in synergy.

Vitamin D carries dietary calcium throughout the body, while vitamin K2 helps ensure that calcium ends up where it's needed.

Kidney-D™ is the only vitamin D3 optimized for kidney health, 100% safe and natural.

Kidney-D™ is suitable for every phase of kidney health: NOURISHES THE KIDNEY CELLS without overloading them, SUPPORTS THE SURROUNDING

ORGANS (heart, liver, adrenal glands, skeletal system, lymph nodes, pancreas, ...) and **PROVIDES** specific **ANTIOXIDANTS** for the kidneys.

Kidney-D™ CONTAINS THE 8 IMPORTANT FACTORS for a total kidney support supplement:

- ➔ **2,000 IU (25 mcg) vitamin D3**, which supports normal kidney function, healthy calcium, phosphorus, and parathyroid hormone (PTH) levels, vitamin D metabolism, strong bones, and whole-body health in dozens of ways
- ➔ **300 mcg of vitamin K2 in the form of MK7**, for bone and heart health, normal arterial calcification and flexibility of the arteries
- ➔ **Vitamin B12 and Folic Acid** for energy, brain health and cardiovascular system
- ➔ **Vitamin C** to improve resistance to infections
- ➔ **Vitamin E** for an efficient immune system
- ➔ **Selenium**, super renal antioxidant, also useful to support the normal activity of glutathione
- ➔ **Zinc**, for healthy metabolism and DNA

Without unwanted ingredients (sweeteners, additives, soy), can be used with other supplements or over the counter products.
