

KIDNEY HEALTH PRODUCTS

recommended in case of kidney problems or to prevent them

TO PURCHASE original products from the manufacturing company, go to the following website and follow the procedure indicated on the "HOW TO PURCHASE" page:

<https://kidney-nutrition.webador.it/>

PAYMENT METHODS

Credit card or Paypal.

SHIPPING AND DELIVERY TIMES

SHIPPING: is entrusted to the **international courier** chosen during the purchase phase; it is possible to monitor the shipment in real time thanks to the **tracking** service.

SHIPPING COST: they depend on the place of destination of the products and are calculated automatically during the purchase phase.

DELIVERY TIMES: consider the time necessary for the shipment from the USA to the country of residence and the time necessary for any customs clearance, which may be necessary according to the rules in force in your country.

RETURNS AND REFUNDS

It is possible both to **RETURN THE PRODUCTS** and to obtain a **FULL REFUND** of the amount paid to purchase them.

Detailed information (company return policies) is available on the website, here:

KIDNEY RESTORE™ FOR PEOPLE

Revolutionary natural solution
which promotes normal renal function
and rejuvenates the kidneys

**FIND OUT THE REVOLUTIONARY SOLUTION
FOR THE WELL-BEING OF THE KIDNEYS:
revitalizes kidneys and improves quality of life!**

This revolutionary Kidney Restore™ supplement has been designed to promote healthy kidneys and allow them to revitalize themselves, preventing the accumulation of nitrogenous wastes and their metabolites such as urea, creatinine and many other waste products.

The niacin and niacinamide in this supplement are two forms of vitamin B3 that help support and block the absorption of phosphorus in the gastrointestinal tract.

The combination of these effects promotes normal kidney function, rejuvenates the kidneys, and promotes heart health.

Acid buildup is also a problem that can be alleviated with a small daily dose of sodium bicarbonate.

The sodium bicarbonate contained in this supplement promotes the proper functioning of the kidneys, regardless of their condition.

1 KIDNEY RESTORE

KIDNEY SHIELD™ FOR PEOPLE

The most powerful supplement for
revitalization and kidney support

**Rich in pure Omega-3 fatty acids,
SOOTHES IRRITATED KIDNEYS AND MAINTAINS
THEIR HEALTH AT THE CELLULAR LEVEL!**

Omega-3 fatty acids are essential for our body and especially for preserving, promoting and maintaining kidney health at the cellular level. They can nutritionally support healthier inflammation and immune responses throughout the body.

Without an adequate supply of them, the organs, especially the kidneys, struggle to maintain health and keep the body in harmony.

In fact, the kidneys are one of the fattest organs in the body and absorb Omega-3 fatty acids like a dry sponge placed in water..

**NOURISHING, PURIFYING AND SUPPORTING THE
KIDNEYS!**

Today, the modern Western nutrition is deficient in beneficial fatty acids. And since the body doesn't naturally produce Omega-3s on its own, they need to be obtained from dietary sources.

The most potent form of Omega-3 comes from fish from the deepest oceans.

1 KIDNEY SHIELD

It also helps maintain potassium levels safely.

This simple strategy could lead to significant benefits in terms of quality of life and improved blood/urine tests.

The probiotics contained in this supplement help eliminate toxins.

Kidney Restore™ helps support normal kidney function by combining the best of these restorative nutrients in a revolutionary natural kidney remedy.

It is the only kidney cleansing supplement that helps prevent many problems:

- It keeps the levels of creatinine, phosphorus, acidity and potassium under control
- Promotes the normal elimination of harmful waste products
- Provides an essential vitamin for optimal nutrition
- It can help maintain healthy cholesterol levels
- Improves quality of life, increases stamina and energy levels, maintains intestinal flora

2 KIDNEY RESTORE

Kidney Shield™ sources its Omega-3s only from toxin-free wild fish, molecularly distilled (i.e. the most effective purification process) to ensure that there are NO MICROSCOPIC TOXINS IN THE PRODUCT!

The Omega-3 fatty acids in Kidney Shield™ are the most potent and purest you can find in any supplement, because they come from fresh, wild-caught fish.

The PATENTED FORMULATION of Kidney Shield™ contains high amounts of the two essential Omega-3s, EPA (eicosapentaenoic acid) and DHA (docosahexaenoic acid).

When these two essential fatty acids reach certain levels, as in Kidney Shield™, they provide the critical nutrients for optimal kidney support.

2 Kidney Shield™ softgels contain a whopping 1,500 mg, in a balanced ratio of 800 mg EPA and 600 mg DHA, plus 100 mg other Omega-3 fatty acids. Exactly what kidneys love.

2 KIDNEY SHIELD

A natural phosphorus blocker
with multiple benefits for the kidneys

**SUPPORTS NORMAL KIDNEY FUNCTION, healthy
levels of phosphorus and cholesterol!**

When you want to support kidney health,
phosphorus is a mineral to keep in balance...

If your kidneys aren't working well, phosphorus
levels can get too high, causing a calcium imbalance
and dangerous calcified deposits in the heart, blood
vessels, eyes, and lungs.

Niacinamide (vitamin B3) safely blocks (or limits)
phosphorus to support healthy kidney function.

This all-natural dietary supplement supports...

- normal, healthy levels of phosphorus in the kidneys
- normal and healthy elimination of toxins, thus reducing the stress on the kidneys
- more variety in your nutrition, so you can eat more of the foods you love and still maintain healthy phosphorus levels

The main ingredient in PhosFix™, niacinamide, IS
NATURAL AND BLOCKS PHOSPHORUS, promoting
optimal kidney health and healthy cholesterol levels.

1 PhosFix

PhosFix™ gives TANGIBLE BENEFITS:

- less effort
- more energy
- stronger bones
- healthier cholesterol levels
- you avoid the pain, anxiety and fatigue generated by unhealthy levels of phosphorus

PhosFix™ is enhanced and optimized with these
ADDITIONAL SUPERNUTRIENTS:

- Chitosan (from crustacean shells such as crab, shrimp and lobster): supports normal phosphorus levels, toxin elimination and cholesterol levels
- F.O.S. (FructoOligoSaccharides), a prebiotic: supports the growth and strength of probiotics to support normal levels of BUN (blood urea levels), creatinine and GFR (Glomerular Filtration Rate)
- Inulin, another prebiotic: supports normal, more effective and efficient elimination of toxins

The only kidney cleanse that guarantees results

**AN ANCIENT KIDNEY CLEANSE
SCIENTIFICALLY APPROVED, PATENTED,
which supports normal kidney function
and the elimination of toxins**

Any kidney problem leads to the accumulation of
toxins and the body can find itself fighting a vicious
cycle of overwork, poisoning and further damage.

A high-quality kidney cleanse can make a difference
in how your kidneys work and how you feel.

Kidney Restore Bio Fiber™ is the most effective and
most advanced BIO FIBER kidney cleansing
supplement on the market, 100% bio, non-GMO.

Made with acacia fiber, using a unique and
PATENTED manufacturing and sourcing process, it
best retains its natural cleansing and detoxifying
properties...

Kidney Restore Bio Fiber™ GRABS KIDNEY TOXINS
AND PROMOTES THEIR ELIMINATION out of the
kidneys and body: acts as a vacuum cleaner for the
kidneys.

Here are some of the amazing PROVEN benefits of
Kidney Restore Bio Fiber™:

1 KIDNEY RESTORE BIO FIBER

2 PhosFix

- Clinically proven to DO SOME OF THE WORK OF THE KIDNEYS, i.e. to remove toxins and other junk that slow down the kidneys: lightens the strain on the kidneys so they can rest and break the cycle of fatigue and poisoning
- Supports normal levels of creatinine, GFR (Glomerular Filtration Rate) and BUN (blood urea levels)
- It helps maintain normal blood sugar levels, giving the feeling of lightness
- Numerous studies have shown that acacia produces more kidney cleansing benefits than anything else available
- Produces more short-chain fatty acids to support normal kidney inflammation
- Acts as a powerful prebiotic for the growth of Bifidobacterium and Lactobacillus, the "good bacteria" that gobble up kidney toxins as food for nourishment
- Supports a healthy digestive system, heart health, normal cholesterol levels, blood sugar, ...
- Gentle on the stomach, it does not cause unpleasant sensations
- Easy to mix, tasteless, no graininess, helps generate the feeling of satiety

2 KIDNEY RESTORE BIO FIBER

🇬🇧 PURE KIDNEY™ 🇺🇸 FOR PEOPLE

Exclusive combination
of pure essential amino acids

Scientifically optimized solution
FOR KIDNEYS WITH LOW PROTEIN NUTRITION

In case of kidney problems it is necessary to limit the intake of proteins, but in a correct way.

The body needs protein to grow and regenerate or, more precisely, it needs amino acids, which various proteins are made of.

But breaking down most high-protein foods, such as meat, poultry, eggs and dairy products, to obtain amino acids produces a huge amount of metabolic waste, which is filtered out of the bloodstream by the kidneys.

If the kidneys are malfunctioning they cannot handle the metabolic wastes, which accumulate and become toxic, causing greater damage to the kidneys.

Thus, urea and other nitrogenous compounds accumulate in the blood and generate additional problems, such as chronic fatigue, heart problems, inflammation, shortened life expectancy, poor quality of life.

However, following a LOW PROTEIN NUTRITION DOES CARRY RISKS.

1 PURE KIDNEY

🇬🇧 Kidney-D™ 🇺🇸 FOR PEOPLE

Innovative formulation of vitamin D

Saves and supports normal kidney, heart and every organ function, supports GENERAL WELL-BEING over time!

84% of people with kidney problems have low vitamin D levels: a damaged kidney cannot convert vitamin D into its active, health-promoting forms.

This can lead to faster progression of kidney damage, faster death, increased protein in urine, severe bone and joint pain, calcium and phosphorus imbalance, hyperparathyroidism, decreased immunity, heart and blood vessel problems, of creatinine and GFR (Glomerular Filtration Rate), increased inflammation, worse overall health.

Vitamin D3 benefits the kidneys and every cell in the body.

To function properly, vitamin D needs vitamin K2: they work in synergy.

Vitamin D carries dietary calcium throughout the body, while vitamin K2 helps ensure that calcium ends up where it's needed.

Kidney-D™ is the only vitamin D3 optimized for kidney health, 100% safe and natural.

Kidney-D™ is suitable for every phase of kidney health: **NOURISHES THE KIDNEY CELLS** without overloading them, **SUPPORTS THE SURROUNDING**

1 Kidney-D

For example you may become deficient in protein. If so, the body could begin cannibalizing muscles and other tissues, breaking them down to get the amino acids it needs elsewhere.

This sets off a dangerous spiral that gradually worsens your health.

Pure Kidney™ is a HIGH QUALITY AMINO ACID SUPPLEMENT, scientifically optimized formulation of essential amino acids for kidney performance with low protein nutrition, i.e. a constant and reliable supply of pure amino acids.

Pure Kidney™ CONTAINS A VERY SPECIFIC BLEND OF ESSENTIAL AMINO ACIDS FOR SICK KIDNEYS, with precise proportions between the various amino acids.

Pure Kidney™ provides the body with everything it needs to support normal kidney function, even while limiting protein in the nutrition.

☑ You'll also get a free copy of the Complete Cooking Guide to Kidney Health, which through proper nutrition can relieve kidney stress, speed up rejuvenation, and even support normal kidney function.

WEBSITE: <https://kidney-nutrition.webador.it/>

E-MAIL: info-aliren@virgilio.it

2 PURE KIDNEY

ORGANS (heart, liver, adrenal glands, skeletal system, lymph nodes, pancreas, ...) and PROVIDES specific ANTIOXIDANTS for the kidneys.

Kidney-D™ CONTAINS THE 8 IMPORTANT FACTORS for a total kidney support supplement:

- ➔ 2,000 IU (25 mcg) vitamin D3, which supports normal kidney function, healthy calcium, phosphorus, and parathyroid hormone (PTH) levels, vitamin D metabolism, strong bones, and whole-body health in dozens of ways
- ➔ 300 mcg of vitamin K2 in the form of MK7, for bone and heart health, normal arterial calcification and flexibility of the arteries
- ➔ Vitamin B12 and Folic Acid for energy, brain health and cardiovascular system
- ➔ Vitamin C to improve resistance to infections
- ➔ Vitamin E for an efficient immune system
- ➔ Selenium, super renal antioxidant, also useful to support the normal activity of glutathione
- ➔ Zinc, for healthy metabolism and DNA

Without unwanted ingredients (sweeteners, additives, soy), can be used with other supplements or over the counter products.

2 Kidney-D

🇬🇧 KIDNEY RESTORE for cats & dogs™ 🇺🇸 FOR PETS

Your cat/dog can live a healthy life and quality by adding this REVOLUTIONARY SUPPLEMENT to daily meal

THE PERFECT NUTRITIONAL SUPPORT for normal kidney function, creatinine and GFR

Kidney problems are a silent and sneaky killer that robs pets of their health and takes them away too soon.

Loss of appetite, lethargy, vomiting, diarrhea, weight loss, increased thirst, alteration of urine quantity, dehydration, lowered body temperature: signs of kidney problems which indicate the slow and progressive accumulation of toxins, free radicals, nitrogenous wastes and acids.

BEST kidney REPAIR NUTRIENTS in revolutionary SAFE & NATURAL FORMULA for cat/dog kidneys: Kidney Restore for cats & dogs™.

It contains:

- Probiotic microorganisms (50 billion) safely support the elimination of harmful kidney toxins and other hazardous wastes by consuming them; this helps the kidneys to rejuvenate
- Prebiotics, a superfood for probiotic microorganisms to keep growing, multiplying and consuming more nitrogenous waste

1 KIDNEY RESTORE for cats & dogs

🇬🇧 KIDNEY SHIELD for cats & dogs™ 🇺🇸 FOR PETS

The most recommended NATURAL SUPPLEMENT to support normal kidney function in your cat/dog

The purest Omega-3 fatty acids that REVITALISE AND REJUVENATE THE KIDNEYS

The kidneys are vital to your cat/dog's health. They filter the blood, remove toxins, chemicals and perform hundreds of functions vital to your health.

If the kidneys are not doing their job properly, toxins, free radicals and inflammation build up and slowly poison them.

Free radicals are unstable molecules that can damage all living cells, especially the kidneys. With inflammation, a part of the body becomes red, swollen, warm, and often painful.

Kidney Shield for cats & dogs™: a REVOLUTIONARY NATURAL KIDNEY FORMULA for pets, based on Omega-3 fatty acids with optimal levels of the compounds EPA and DHA.

Supports NORMAL INFLAMMATORY RESPONSE, NORMAL KIDNEY FUNCTION as well as heart, brain and joint health.

This supplement is made from wild Alaskan salmon oil plus sardines, herring, mackerel and anchovies from pristine deep waters, for more powerful health benefits than any other source.

1 KIDNEY SHIELD for cats & dogs

- A pinch of sodium bicarbonate (1 mg per serving), to help neutralize the acids that build up in weak kidneys
- Niacinamide (vitamin B3): works wonders for balancing phosphorus and supporting healthy lipid levels, and supports heart health
- Vitamin C, a powerful antioxidant that helps neutralize free radicals, especially in the kidneys

Kidney Restore for cats & dogs™: a DELICIOUS sweet potato and bacon flavored BLEND. 3 grams a day mixed with food is enough. Benefits:

- Normal alkalization and detoxification of the kidneys which will eliminate poisonous toxins from the blood
- Less effort and more energy
- Appetite restored, mood improved and weight stable
- Better sleep (will wake up rested)
- Soothes the stomach and promotes normal digestion (healthy stools)
- Supports normal GFR (Glomerular Filtration Rate), creatinine and BUN (blood urea levels)
- Healthier immune system and urinary tract
- Normal oral health, neutralization of bad breath

WEBSITE: <https://kidney-nutrition.webador.it/>

E-MAIL: info-aliren@virgilio.it

2 KIDNEY RESTORE for cats & dogs

With no adverse effects, only 100% SAFE & NATURAL INGREDIENTS, to promote even better health, Kidney Shield for cats & dogs™ also contains:

- Beta carotene, a plant-derived antioxidant, supports the body and kidney cells from the harmful effects of free radicals
- Vitamin E, one of the most powerful antioxidants, fat-soluble, which protects cell membranes. It also blocks the harmful effects of oxidation, so it helps support your heart, cholesterol, skin and more.

Results:

- Less effort and more energy
- Less swelling and normal inflammatory response
- More appetite, improve mood and stabilize weight
- Soothes the stomach: normal digestion, healthy stools
- Supports normal creatinine, GFR (Glomerular Filtration Rate) and BUN (blood urea levels)
- It supports an efficient immune system and the normality of the urinary tract

E-MAIL: info-aliren@virgilio.it

2 KIDNEY SHIELD for cats & dogs

🇬🇧 PhosFix for cats & dogs™ 🇺🇸 FOR PETS

THE MOST EFFECTIVE FORMULATION
for cats/dogs to control phosphorus

RESTORE THE PHOSPHORUS BALANCE
without side effects

Too much phosphorus in your cat/dog's blood can cause joint and muscle weakness and pain, red and itchy eyes, even severe diarrhea or constipation, nausea and vomiting: it can be deadly!

Phosphorus is important for healthy bones and body, for the health of kidneys, muscles, blood vessels: it is needed by every cell and to produce energy.

When their kidneys aren't working well, phosphorus levels can get too high.

The first step is to LIMIT THE PHOSPHORUS they consume, keep them well hydrated and in good physical activity: reducing phosphorus often involves reducing protein and this leads to loss of strength and wasting of muscles. But that's not all: manipulating their nutrition may not be enough.

The next step is to TAKE PHOSPHORUS BINDERS, but this can lead to side effects, as they contain artificial active ingredients: those with aluminum can cause brain damage, those with calcium problems in terms of calcification.
So what to do?

1 PhosFix for cats & dogs

🇬🇧 KIDNEY RESTORE dog treats™ 🇺🇸 FOR PETS

Even your dog's TREATS
may promote normal renal function!

**Packed with NATURAL ANTI-INFLAMMATORY
INGREDIENTS & ANTIOXIDANTS**
to aid in toxin elimination & overall health

If your dog is suffering from kidney problems and you feed him "regular" dog treats, chances are you're making it worse.

Most dog treats are quite high in protein: they are bad for malfunctioning kidneys and are also the main sources of phosphorus, which already tends to increase dramatically in case of kidney problems.

When this happens, it can lead to any calcification problems in the joints and form calcified deposits in the eyes, heart, blood vessels and worst of all, kidney failure!

But every dog deserves treats: so what to do? Wouldn't it be ideal to give them a SNACK THAT even IMPROVES THE HEALTH OF THEIR KIDNEYS?

Kidney Restore Dog Treats™ is a "superfood" supplement in the form of soft treats that help RESTORE, REJUVENATE AND SUPPORT KIDNEY HEALTH AND FUNCTION with every bite!

Created especially for senior dogs (but SUITABLE FOR ALL AGES, SIZES AND BREEDS), Kidney Restore Dog Treats™ support your dog's kidneys against

1 KIDNEY RESTORE dog treats

The SOLUTION comes thanks to NIACINAMIDE (vitamin B3), able to safely block (or limit) the absorption of phosphorus, supporting normal long-term renal function.

TOTALLY NATURAL, PhosFix for cats & dogs™ brings these benefits:

- Normal levels of phosphorus in the kidneys
- Normal elimination of toxins
- Normal cholesterol levels
- Less effort and more energy
- Stronger bones
- Possibility to feed them with a little more protein and help prevent muscle atrophy

PhosFix for cats & dogs™ is FURTHER OPTIMIZED with other natural ingredients:

- F.O.S. (FructoOligoSaccharides), a prebiotic that supports the growth and strength of probiotics (healthy bacteria), to normalize BUN (blood urea levels), creatinine and GFR (Glomerular Filtration Rate)
- Inulin, another prebiotic, supports more efficient toxin elimination
- Chitosan, which supports normal phosphorus levels, the elimination of toxins, fats, cholesterol

WEBSITE: <https://kidney-nutrition.webador.it/>
E-MAIL: info-aliren@virgilio.it

2 PhosFix for cats & dogs

stress, toxins, support normal inflammation and are also safe to take with other products and supplements.

ONLY NATURAL INGREDIENTS, low in phosphorus and protein. Gluten, egg, soy free.

They contain:

- Cordyceps (a mushroom) for a normal inflammatory response, to protect the kidneys from toxins and support blood sugar levels
- Prebiotic acacia fiber to eliminate toxins and facilitate digestive health
- Turmeric to support a healthy inflammatory response in the kidneys and throughout the body
- Rehmannia (a herb) to rejuvenate the kidneys and reduce kidney fatigue
- Cranberry extract to remove kidney toxins and strengthen the urinary tract
- Astragalus to improve circulation and regulate protein levels
- Vitamins C, E and B complex to strengthen immunity
- Potassium and pumpkin to provide additional nutrients
