

KIDNEY RESTORE dog treats™

FOR PETS

**Even your dog's TREATS
may promote normal renal function!**

***Packed with NATURAL ANTI-INFLAMMATORY
INGREDIENTS & ANTIOXIDANTS
to aid in toxin elimination & overall health***

If your dog is suffering from kidney problems and you feed him "regular" dog treats, chances are you're making it worse.

Most dog treats are quite high in protein: they are bad for malfunctioning kidneys and are also the main sources of phosphorus, which already tends to increase dramatically in case of kidney problems.

When this happens, it can lead to any calcification problems in the joints and form calcified deposits in the eyes, heart, blood vessels and worst of all, kidney failure!

But every dog deserves treats: so what to do? Wouldn't it be ideal to give them a SNACK THAT even IMPROVES THE HEALTH OF THEIR KIDNEYS?

Kidney Restore Dog Treats™ is a "superfood" supplement in the form of soft treats that help RESTORE, REJUVENATE AND SUPPORT KIDNEY HEALTH AND FUNCTION with every bite!

Created especially for senior dogs (but SUITABLE FOR ALL AGES, SIZES AND BREEDS), Kidney Restore Dog Treats™ support your dog's kidneys against

stress, toxins, support normal inflammation and are also safe to take with other products and supplements.

ONLY NATURAL INGREDIENTS, low in phosphorus and protein. Gluten, egg, soy free.

They contain:

- ➔ Cordyceps (a mushroom) for a normal inflammatory response, to protect the kidneys from toxins and support blood sugar levels
- ➔ Prebiotic acacia fiber to eliminate toxins and facilitate digestive health
- ➔ Turmeric to support a healthy inflammatory response in the kidneys and throughout the body
- ➔ Rehmannia (a herb) to rejuvenate the kidneys and reduce kidney fatigue
- ➔ Cranberry extract to remove kidney toxins and strengthen the urinary tract
- ➔ Astragalus to improve circulation and regulate protein levels
- ➔ Vitamins C, E and B complex to strengthen immunity
- ➔ Potassium and pumpkin to provide additional nutrients
